

F-Secure Safe YOUR LIFE IS ONLINE, WE WILL MAKE IT SAFE

Multi-device protection for a worry-free online life

F-Secure SAFE protects the digital content on your computer, smartphone, and tablet. It offers the best protection in the world against viruses, spyware, hacker attacks, and identity theft, while also blocking harmful web sites and online attacks when you are browsing the web. F-Secure SAFE also protects your children against unwanted web sites and allows you to moderate their online life. It also protects the content of your smartphone and tablet against loss or theft, and makes online banking safe on your PC.

Protect all your computers, smartphones and tablets with one solution

Choose your F-Secure SAFE subscription based on the number of PCs, Macs, smartphones or tablets that you own. Manage the protection on your devices with an easy-to-use personal console. Worry-free surfing, banking and shopping has never been easier. Our online chat and phone support ensure that your online life is safe and stays in your control. F-Secure SAFE will protect you.
